1. X	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:			
	Although claim 10 is directed to a method of treatment of the human/animal body, the search has been carried out and based on the alleged effects of the compound/composition.			
2.	Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:			
3.	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).			
Box III Observations where unity of Invention is lacking (Continuation of item 3 of first sheet)				
This Inte	ernational Searching Authority found multiple inventions in this international application, as follows:			
1.	As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.

4	No required additional search fees were timely paid by the applicant. Consequently, this International Search Report Is restricted to the invention first mentioned in the claims; It is covered by claims Nos.:			
Remark	on Protest The additional search fees were accompanied by the applicant's protest.			
	No protest accompanied the payment of additional search fees.
